100% Cotton flannel developed using techniques inherited from the “KISHU Flannel”

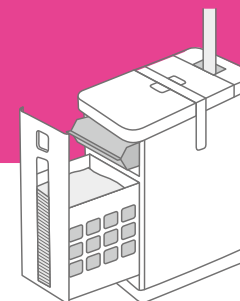

History of KISHU Flannel

Kishu originated as a warm cotton cloth "Monpa" produced during Meiji era (1764-1771). A thick cotton cloth napped using pine needles that was highly valued for its warmth and soft texture. With the spread of industrial techniques, "Monpa" was developed into a light, modern cloth. This is considered the birth of the "KISHU Flannel" which is renowned for its high moisture and heat retentivity.

Designer
ATSUSHI NAKASHIMA

In 2004, Atsushi Nakashima moved to Paris and spent seven years working as an assistant and head designer of the Diffusion line for Jean Paul Gautier. After returning to Japan, he established his own brand “ATSUSHI NAKASHIMA” and announced his collection at the 2012 Mercedes-Benz Fashion Week Tokyo. He was awarded the DHL design award and is considered one of the most promising young designers in Japan.

Mouth wash

L-8020
えるはちまるにいまる

I have already started!
A new concept
for everyday dental care.

The importance of dental care has been recognized
by more people.
Nowadays it's not rare to see people brushing their teeth
2-3 times daily.
But.. Is brushing alone really enough to get rid of germs?

What’s L8020?

Our mouth wash was developed through joint research with the Dental School of Hiroshima University.

Professor Hiroki Nikawa,
Hiroshima University Dental School

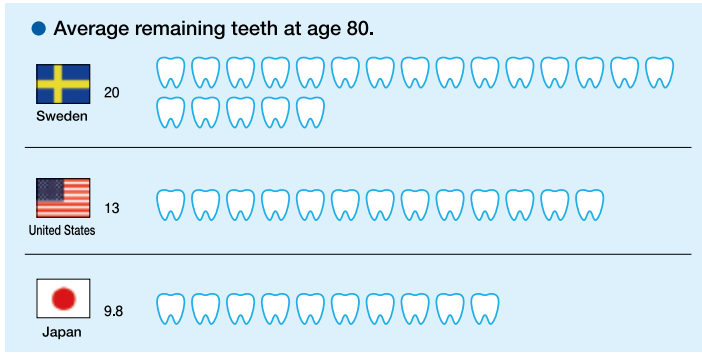

Lactobacillus L8020 was discovered by Professor Hiroki Nikawa. L8020, lactic acid bacteria was found in 13 people who have healthy teeth.

L8020 eliminates germs cause dental problems, keeping clean and healthy oral hygiene.

L8020

Lactobacillus plays an important role to maintain healthy bacterial balance in your mouth. Through a joint study with Dental school of Hiroshima University, I discovered a bacterium from most healthy mouths, and named it “L8020.”

Japanese cosmetics

「New Body Powder」

This baby powder was made by the Tokuda family in Ueno, Tokyo. It has been used by people all over Japan for more than 100 years without change to the recipe. It has been used for baby diaper rash and body rash through the ages and has a very nostalgic fragrance. Ideal for treating sweat based summer conditions, heat rash, inflammation, razor rash etc.
