

Air Doctor

The new generation of Virus Prevention and deodorization technique

MADE IN JAPAN

Distributer Petra co.

Viruses & Bacteria

“ 82 million persons are attacked by these Viruses & Bacterias worldwide
2 million persons are dying worldwide yearly by this virus ”

World health organization (WHO)

More than 100 of viruses & bacteria exist in our world.

Influenza virus

One virus is more widespread, active and attacking than the others.

We all hate it, but what if we can prevent it?!

Injection or medicine?

Too old...
What if there is something out
there do exist you can use it
instead of swallowing medicines or
using injections??

Air Doctor

Prevention Is Better Than Cure

What is the Air Doctor?

- The new generation of Virus Prevention and deodorization technique.
- Air Doctor gives you a good hygiene life and comfortable feeling wherever you go, thanks to the power of solid chloride dioxide which provides a space that is microorganisms-free.
- Air Doctor effectively kills pathogenic microorganisms such as fungi, bacteria and viruses.
